

**Supplementary Fig. 1.** Correlation between the pre-treatment nNO and clinical parameters. A: Correlation between the pre-treatment nNO and pre-treatment eosinophil percentage. B: Correlation between the pre-treatment nNO and pre-treatment serum total IgE. C: Correlation between the pre-treatment nNO and pre-treatment TNSS. D: Correlation between the pre-treatment nNO and pre-treatment TNSS eye. E: Correlation between the pre-treatment nNO and pre-treatment RQLQ score. nNO, nasal nitric oxide; ppb, parts per billion; IgE, immunoglobulin E; TNSS, Total NasalSymptom Score; RQLQ, Rhinoconjunctivitis Quality of Life Questionnaire.
